The programme aimed to sensitise students to the importance of integrity, transparency, accountability and ethical conduct in public and personal life. It highlighted the need to recognise corruption as a major impediment to good governance, social justice and sustainable development. The theme also encouraged students to reflect on the role of individual responsibility and collective participation in building a corruption-free society.

Students participated enthusiastically in both competitions and expressed their understanding of the theme through creative posters and thought-provoking slogans. Their entries conveyed messages against corruption while emphasising honesty, fairness, moral responsibility and the importance of upholding ethical values. The activities provided a constructive platform for students to communicate their ideas and demonstrate their creativity while engaging with an issue of significant national importance.

The collaboration between the two departments also highlighted the relevance of environmental responsibility, social ethics and moral values in shaping responsible citizens. The programme reinforced the understanding that probity is not merely an administrative requirement but a fundamental value essential for public trust, institutional credibility and inclusive prosperity.

The event concluded with an appreciation of the students' active participation and creative contributions. Overall, the programme served as a meaningful awareness initiative, encouraging young minds to uphold integrity in their everyday actions and contribute towards the vision of a transparent, accountable and corruption-free India.
