**Extension Work / Community Service:** As a member of organising committee of plantation drive, co-ordinates an annual massive plantation drive in the college

campus and adjoining areas and tries to disseminate the significance of tree plantation to the general public with reference to human existence, especially the two essentials of life viz. food and oxygen. Further trees being an important part of every community, are seen in our streets , parks , playgrounds and backyards, thereby creating a peaceful, aesthetically pleasing environment (community and social value).Trees are used to deflect the sunlight in cities to reduce heat island effect caused by pavement and commercial buildings. The ecological and environmental significance include, oxygen, improving air quality ,climate amelioration, conserving water, preserving soil and supporting wildlife. Trees control climate by moderating the effects of the sun, rain and wind. Trees also lower the air temperature and reduce the heat intensity of the green house effect by maintaining low levels of carbon dioxide.

social and commercial values in increasing the cost of adjoining land.

**4<sup>th</sup> June – 10<sup>th</sup> June ,2016:** Participated in *Environmental Week* celebrations as a member of *Organising committee* and participated in three-day long CAMPUS CLEANING DRIVE
